### **Orion Law Management Systems Announces Exchange Sync Module**

*Orion's Technology Enables Data Sharing and Collaboration between Orion Practice Management System, Outlook E-mail and Mobile Smartphone Devices*

**Atlanta, GA – November 19, 2010** – Orion Law Management Systems, Inc. ([www.orionlaw.com](http://www.orionlaw.com)) announces its new Exchange Sync Module to enable real-time synchronization of contacts, tasks and calendar items between Orion's Practice Management System and Microsoft® Outlook® via direct access to Microsoft Exchange. Orion customers can now view and edit information directly from Smartphones such as the Blackberry®, iPhone® or Palm® OS Phone, which frees them to work whenever and from wherever is convenient from the office, home or on the road.

Paul Yelton, President of Orion Law Management Systems, Inc., remarks, "Today's lawyers need access to their client data at all times from mobile devices. Orion's new Exchange Sync facilitates mobile communication and streamlines data entry by sharing the information between the systems and handheld Smartphones. This functionality boosts convenience, productivity and versatility for busy legal professionals."

Clark, Partington, Hart, Larry, Bond & Stackhouse, with offices in Pensacola and Destin, Florida, recently installed the new Exchange Sync module as part of Orion's Practice Management System. The firm had been using Orion's Financial Management System, which includes accounting and time/billing, for many years. The Exchange Sync was one of the deciding factors in their decision to buy the Practice Management package.

According to Will Dunaway, a Partner at Clark, Partington, "Orion's Exchange Sync feature is incredibly helpful since it allows Orion contact and calendar event information to be populated to Outlook, which is then pushed to our attorneys' Smartphones. Being able to access and edit calendar events and contacts on Smartphones is crucial to our mobile lawyers' success and

productivity. Once we saw the Exchange Sync module, that clinched our decision to buy Orion's Practice Management module and we are extremely pleased with the software."
