Orion Mobile Time Capture

Tired of Losing Billable Time?

Now mobile professionals talking on the phone or emailing clients can seamlessly capture and send billable time straight to the Orion Financial System right after they hang up or send their email.

Studies show that professionals lose up to 1.2 billable hours per day due to poor time tracking methods. **Orion Mobile** solves this problem for you.

Be Anywhere, Bill Anywhere With Your Office at Your Fingertips

Orion Mobile works with AIRTIME™ to increase billings while virtually eliminating the time and effort required to track activities on BlackBerry® and other compatible Windows Mobile® devices.

Enables you to:

- Automatically capture billable events otherwise forgotten
- Quickly enter billable time from anywhere
- Improve productivity by streamlining time entry management

Planes, Trains, Automobiles, Nights and Weekends

Professional Service Firms conduct their business anytime, anywhere. Whether commuting to work, or meeting with clients on –site, your professionals are truly mobile. It’s while they are in motion that recording project- related time accurately is most inconvenient. Utilizing a quick and simple time- capture tool is critical. **Orion Mobile** allows you to:

1. Enter time and quick notes easily from anywhere
2. Includes a “most frequently used” case list for easy entry
3. Use the technology device that is most readily at hand
4. Automatically identify activities that may be billable
5. Collect those entries and notes and send them directly to accounting for review or immediate billing
