AIRTIME-Manager Integration

Enter More Time, Make More Money

AIRTIME-Manager®

putting time on your side – *wirelessly™*

Entering time on the go is a must for today's legal professionals. Whether commuting to work, traveling for work, or meeting with clients on-site, lawyers and staff must be mobile. **Orion** now seamlessly integrates with **AIRTIME-Manager**, so you can enter time from your Smartphone. Professionals lose up to 1.2 billable hours per day due to missed time tracking opportunities. Using a quick and simple time-capture tool like AIRTIME and combining it with a great Financial Management system like Orion is the way to go!

Orion and AIRTIME-Manager together allow professionals to:

- Enter time and notes easily over any wireless connection using **Blackberry®**, **iPhone®** and **Android™** devices
- Access a “most frequently used” case list for easy entry
- Automatically identify billable activities
- Batch and send entries to accounting for review or immediate billing

The Orion-AIRTIME Integration is Seamless

- Time submitted from AIRTIME-Manager interface is ready to be billed from Orion
- Populate and update “Favorites” in AIRTIME-Manager from Orion’s “My Matter List”
- Matters opened in Orion are automatically added to AIRTIME-Manager

“Calls on the road are historically the hardest to track, but now I don’t miss any of them. More importantly, with the calls fresh in my mind, the descriptions are better, which makes my clients happier.”

Firm Partner

Client Matter	Client Name	Matter Name	Billable
007503-000002	AMFISH HARB	Burch House	Elwyn
008069-000001	ABBOTT & VOINERBLOOD	Abbott v. Casillo	Abbott
002218-000001	AEC COMPANY	AEC Company v. Georgia Power and Light Company	AEC v. GP
001548-000001	COOKIE FACTORY	Cookie Factory v. Kater's Bakery	Kater's Bakery
000138-000001	EMERSON FIDELITY & TRUST	Whakal, George Michael vs. Emerson Fidelity & Trust	Whakal

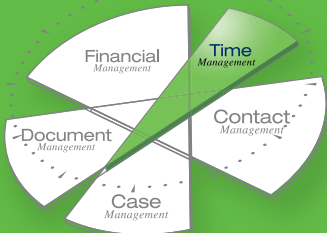

your Smartphone

your Law Firm

As you add Matters to the “My Matters List” view in Orion, the “nicknames” defined in Orion are used to automatically update AIRTIME-Manager with the same list.

Real-Time Billing Beats Doing It Later – or Not at All!

AIRTIME-Manager helps you increase billable time while virtually eliminating the need to track activities on Blackberry®, iPhone® and Android™ devices.

Quickly enter billable time from anywhere using AIRTIME-Manager's TimeNote.

AIRTIME-Manager's Stopwatch feature allows you to capture time during meetings or travel.

Automatically capture billable time for events like phone calls or emails, using pre-defined user-based time "thresholds".
