Integration with iTimeKeep Mobile Apps

Tired of Losing Billable Time?

iTimeKeep

Today's law firms cannot afford to lose track of their invaluable billable time. As soon as lawyers or legal professionals step away from their computers, keeping track of time becomes a more difficult task. Recent studies and surveys have repeatedly found that frequent and immediate timekeeping greatly decreases the number of lost or "leaked" billable hours. Further, many of the solutions offered for the mobile attorney and staff tend to be complex, cumbersome, and expensive. Until iTimeKeep!

Orion and Bellefield Systems have joined forces to create a seamlessly integrated solution that brings mobile timekeeping to a whole new level. iTimeKeep has been designed with simplicity in mind. With basically no training and very little setup, lawyers and their legal staff are able to immediately begin entering time using an iPad® or iPhone®.

iTimeKeep Seamlessly Integrates with Orion

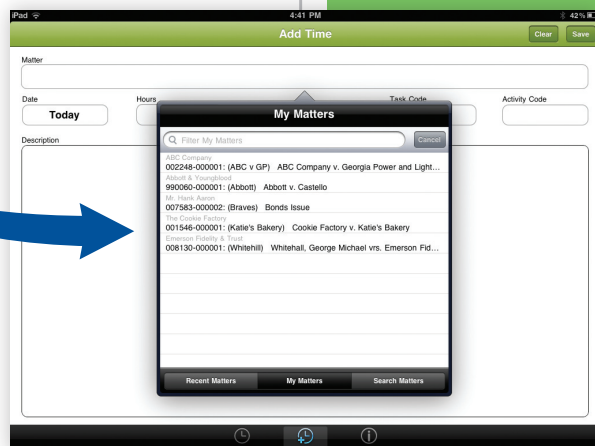

- Submitted time from iTimeKeep is ready to be billed from Orion within seconds!
- iTimeKeep Apps for iPad and iPhone can be downloaded from the Apple Store®.
- Populate and update "My Matters" in iTimeKeep from Orion's "My Matter List".
- Recently used Matters in Orion are used to populate a similar list in iTimeKeep.
- Matters opened in Orion are automatically added to iTimeKeep.
- Matters requiring Task & Activity Codes have their list of approved codes synchronized with iTimeKeep.

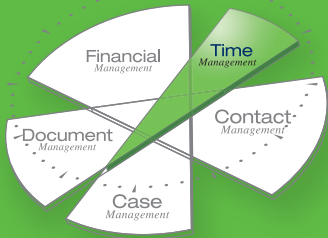

"Entering time in Orion via iTimeKeep from my iPad and iPhone is a huge time saver. Time capture is fast & easy allowing me to record more of my billable time."

Hart, Larry, Bond &
Stackhouse*

Client Matter	Client Name	Matter Name	Nickname
007583-00002	AARON, HANK	Bonds Issue	Braves
990060-00001	ABBOTT & YOUNGBLOOD	Abbott v. Castello	Abbott
002248-00001	ABC COMPANY	ABC Company v. Georgia Power and Light Company	ABC v GP
001546-00001	COOKIE FACTORY	Cookie Factory v. Katie's Bakery	Katie's Bakery
008130-00001	EMERSON FIDELITY & TRUST	Whitehall, George Michael vrs. Emerson Fidelity & Trust	Whitehall

As you add Matters to the "My Matters List" view in Orion, the "nicknames" defined in Orion are used to automatically update iTimeKeep with the same list. Searches for Matters are simplified by allowing lawyers and legal staff the ability to locate Matters using this same "nickname".

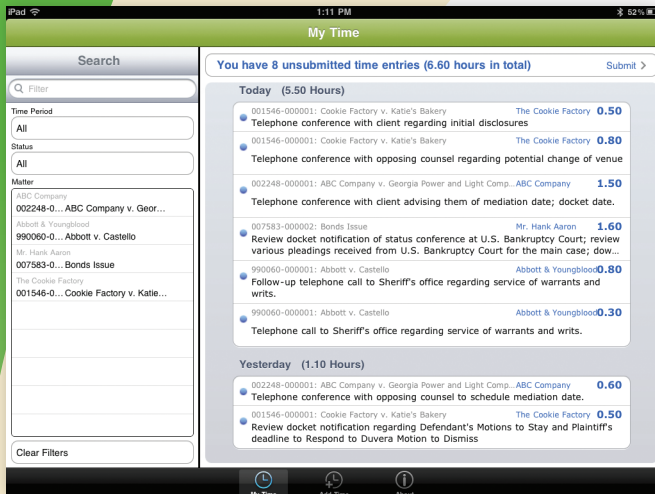

Firms have tried all sorts of complex ways to access their data on the go. But the costs, user experience, installation requirements were never very good. iTimeKeep changes all of that. Orion and Bellefield manage the complexity so that firms don't have to. For the lawyer or legal professional, it takes 2 simple steps:

- ➔ Download iTimeKeep from the Apple Store.
- ➔ Contact Orion or Bellefield Systems to schedule installation of a lightweight service ("Bellefield Connect") that runs on the Orion server.

Most installations are completed within hours, not days, so the lawyers or legal professionals are capturing more billable time sooner rather than later.

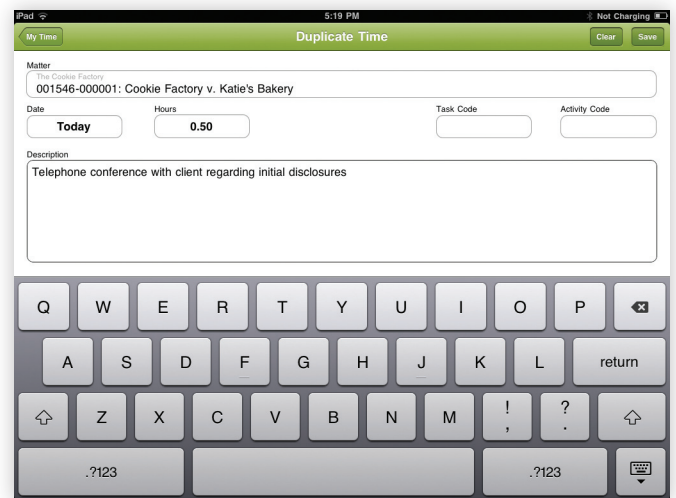

View both pending and submitted time with your iTimeKeep App.

Designed with Simplicity and Security in Mind

- Streamlined Installation Process – In two simple steps, lawyers and their legal staff are capturing billable time from an iPhone or iPad. Implementation times are measured in hours, not days.
- Simple, user-friendly interface requires virtually no training.
- Spelling errors are avoided with quick-words and auto-correction.
- Submit one or more time entries with a single click.
- User-based access & "bank grade" communication security insure the firm's data.

Low Cost of Ownership – High Return on Investment

- Scalable Licensing – Start with just one (or more) lawyer/legal staff and add more seats as needed within minutes.
- Try Before You Buy – Download a trial version with a fully-functional database before purchasing.
- Small Up-Front Cost – With month-to-month billing and no long-term commitment, return on investment is realized within months, not years.

Simple, user-friendly interface requires virtually no training.
