Orion Visual Analytics

Turn Metrics into Meaning with Visual Analytics

Traditional financial reports can obscure the bigger picture, but visual insights bring performance data into focus. Orion Visual Analytics turns complex financials into clear visuals, helping law firms quickly identify patterns, outliers, and opportunities hidden in plain sight.

Orion Visual Analytics is more than a dashboard. It's a discovery engine built to answer complex business questions and support strategic planning. Replace outdated spreadsheets and static reports with a powerful, interactive platform that transforms raw data into dynamic graphs designed to sort, filter, and share for precise, firm-wide analysis.

From tracking realization rates and write-downs to client performance and billing trends, Visual Analytics gives law firms an intuitive way to explore key drivers of success and early warning signs of risk.

Total Visibility. Better Decisions.

Interactive dashboards replace static reports and spreadsheets, giving firms instant clarity into performance trends, key metrics, and the story behind the numbers. Orion Visual Analytics provides visibility at a glance and instantly converts Orion financial data into meaningful visuals for faster interpretation and better-informed decisions.

- Auto-generate optimal visual formats (bar, trend line, scatter plot, etc.)
- Customize dashboards tailored to roles, departments, or KPIs.
- Compare performance across timekeepers, clients, and practice areas.
- Spot trends, outliers, and performance issues in an instant.

With everything in view, firms can act faster, plan smarter, and control risk to lead with confidence.

"Orion Visual Analytics allows firm management to easily spot problem areas such as non-productive attorneys or clients who are slow to pay. This vital insight into our Orion financial data helps us see what can be improved upon, which is essential for timely and efficient management of the firm. This interactive and visual business intelligence platform is an excellent tool that I would recommend to any law firm."

Managing Partner
Mid-sized Law Firm

Deeper Insights. Easier Analysis.

Powerful tools allow firms to go beyond the surface and explore the "why" behind data trends without waiting on reports. Visual dashboards instantly reveal how every metric and decision impacts performance, from top-level views down to detailed insights.

- Filter and sort information to isolate key information.
- Create on-the-fly calculations for clear context.
- Group, rank, and summarize data for big-picture views.
- Drill down instantly to reveal raw data behind trends.

The result is valuable time savings, stronger analytical capabilities, and a more data-driven, strategic planning process.

Real-Time Access. Firm-Wide Impact.

Orion Visual Analytics instantly reflects financial data in real-time dashboards with flexible sharing options. In just a few clicks, key stakeholders can get answers without chasing data or updates from staff.

- Share dashboards across the firm using existing file-sharing systems.
- Pre-configured dashboards include Firm Overview, Accounts Receivable, Work in Progress, Attorney Statistics, Financial Analysis, and more.
- Use in real-time during meetings without waiting on reports.

From attorneys to administrators, anyone can easily access the data they need in a manageable format to take informed action faster.

Experience the Benefits of Orion Visual Analytics

- **Faster Insights:** Visual dashboards replace static reports for instant answers.
- **Smarter Planning:** Track key trends and KPIs to guide firm-wide strategy.
- **Increased Agility:** Evaluate performance in real time—no waiting on accounting.
- **Greater Transparency:** Share dashboards across teams to align decision making.
- **Improved Profitability:** Spot inefficiencies, write-down patterns, and underperformance early.
- **Reduced Risk:** Monitor financial exposure and client trends before they become liabilities.

Whether you're managing resources, setting compensation, or planning for growth, bring a new level of clarity to the data behind your firm's success. See the full picture faster with Orion Visual Analytics.
